

A JOINT VENTURE OF  
INDIANOIL, HINDUSTAN PETROLEUM  
& BHARAT PETROLEUM

## CEO Message IHB's 7th Foundation Day

Dear Colleagues,

It gives me immense pleasure to extend my warm greetings to every member of the IHB family on the joyous occasion of the 7th Foundation Day of IHB Limited.

On 9th July 2019, IHB Limited was established as a unique joint venture of three Maharatna Central Public Sector Enterprises—Indian Oil Corporation Limited (IOCL), Hindustan Petroleum Corporation Limited (HPCL), and Bharat Petroleum Corporation Limited (BPCL)—with the vision of developing the prestigious Kandla-Gorakhpur LPG Pipeline Project, one of the largest LPG pipeline projects in the world. This ambitious initiative was conceived not merely as an infrastructure project, but as a significant contribution to strengthening India's energy security and creating a safer, cleaner, and more efficient LPG transportation network.

As we celebrate seven years of our journey, we can take immense pride in what we have accomplished together. Our progress has been driven by determination, technical excellence, innovation, and, above all, the unwavering dedication of you all. What started as a bold vision has steadily transformed into a remarkable success story through the collective efforts, resilience, and teamwork of the entire IHB family.

I am delighted to share that we have achieved approximately 96% physical progress of the project, successfully commissioned 1,204 km of the main pipeline, and operationalized nine LPG

Bottling Plants.

These milestones are not merely project statistics—they represent thousands of hours of meticulous planning, relentless execution, and an uncompromising commitment to quality and excellence. Every achievement reflects the professionalism and perseverance that each one of you brings to the organization every day.

As we enter the final phase of project completion and continue expanding our operational footprint, our foremost priority must remain Safety. LPG is one of the most sensitive petroleum products, and its transportation and handling demand the highest standards of operational discipline and vigilance. A strong safety culture is built not only through systems and procedures but through the everyday actions of every employee. Let us continue to uphold the highest standards of safety, remain vigilant, and lead by example in ensuring that every task is performed safely and responsibly.

## CEO Message

IHB's 7<sup>th</sup> Foundation Day

A JOINT VENTURE OF  
INDIAN OIL, HINDUSTAN PETROLEUM  
& BHARAT PETROLEUM

I am confident that, with the same passion and commitment that have brought us this far, we will successfully complete the remaining sections of the project, commission the balance pipeline network, and establish IHB Limited as a benchmark for safe, reliable, and efficient LPG pipeline transportation in the country.

On this special occasion, I express my heartfelt appreciation to each one of you and to your families for your unwavering dedication, resilience, and continued support. Your hard work is the foundation of our achievements, and your commitment will continue to shape the future of IHB Limited.

As we celebrate this important milestone, let us renew our commitments to excellence, integrity, innovation, teamwork, and safety. Together, let us continue building an organization that contributes meaningfully to India's energy infrastructure while creating lasting value for our stakeholders and the nation.

I wish you and your families good health, happiness, and continued success.

Happy 7th Foundation Day to all of you!
