

Visit of Directors to BPCL Indore Plant

On **01.12.2025**, the Directors of IHB Limited visited the BPCL Indore Plant, which is yet to commence operations.

The Directors undertook a site walkthrough to review the existing infrastructure, layout and planned operational arrangements. During the visit, the Directors also interacted with IHB employees stationed at Indore and discussed project progress, readiness activities, and coordination requirements for future operations.

As part of the programme, a plantation drive was conducted within the premises. The Directors, CEO and COO planted saplings, reinforcing IHB's commitment to environmental sustainability and creating a green and safe work environment at all project locations.

The visit provided valuable insights into the site's preparedness and strengthened internal coordination as IHB moves towards operationalizing key facilities along the KGPL network.
